NAME

Airframe Plant No 126, Komsomolsk

COUNTRY	GEO COORDINATES	WAC	BE NO	NPIC NO	COMOR NO
USSR	50-36N 137-04E			13A	

Airframe Plant No 126 is located on the northeastern edge of Komsomolsk, USSR. The plant consists of the Northwest Area (formerly designated Komsomolsk Airframe Plant No 130) and the Southeast Area. Both areas face Komsomolsk Airfield [] which is the test and flyaway field.

The plant was covered by [] photography for the first time in [] 1/ In [] several important developments were observed at the plant. The most significant of these was the presence of 16 probable missile airframes located adjacent to a small secured area along the northern security fence of the Northwest Area. Each measures approximately [] The small secured area contains 2 small buildings served by a concrete apron, 3 crates each measuring approximately [] feet, and 11 crates each measuring approximately [] The area is served by a loop road which connects the area to the main assembly building.

More stringent security precautions have been observed in the Northwest Area since [] 2/ Guard towers have been erected along the perimeter fence, and a new control point has been constructed at the entrance to the plant. In the Southeast Area a large machine shop/workshop, which was in an early stage of construction in [] is now approximately 50 percent complete.

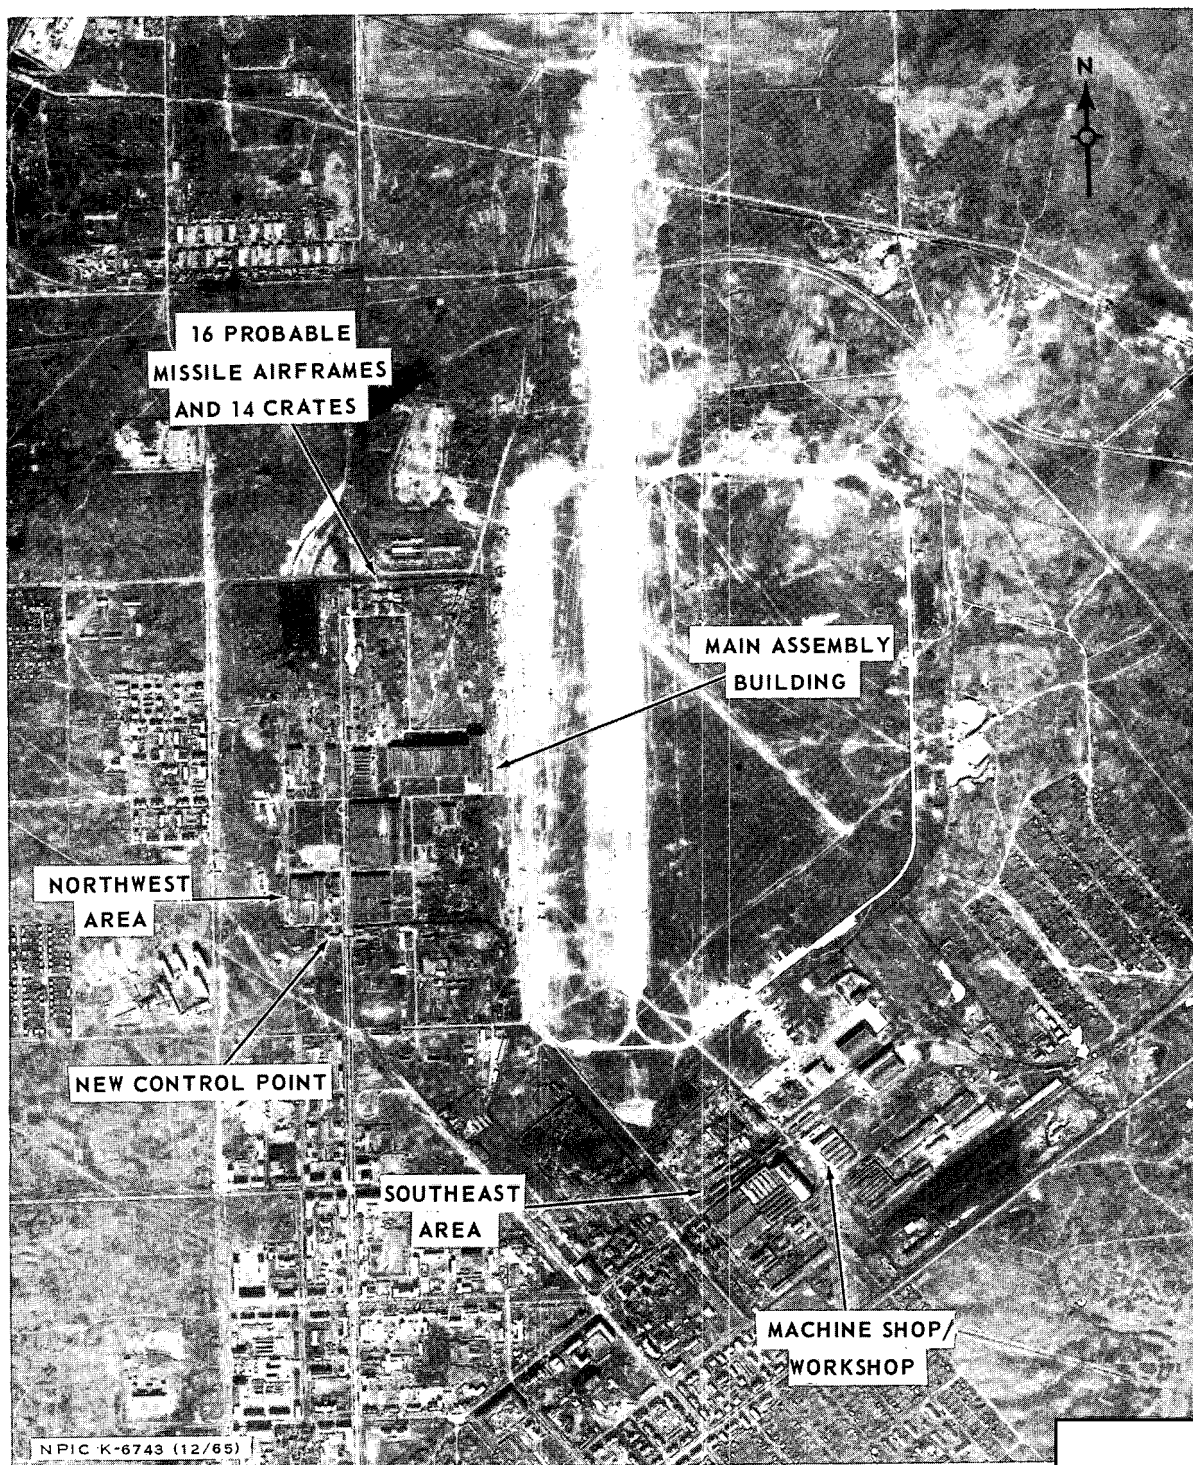

On [] 19 FITTER, 1 partly assembled FITTER, 1 FLASHLIGHT/FIREBAR, 39 FAGOT/FRESCO, 6 CAB, 2 COLT, 2 LIAISON, and 2 HOUND were observed at the Komsomolsk Airfield.
